

The staff at Great Beginnings Pediatric Dentistry recognizes that you are often driving long distances to our office for treatment. To eliminate any confusion, **the first visit to our office is for a consultation.** This allows Dr. Laura to take any necessary radiographs, evaluate behavior and formulate an appropriate treatment plan. In addition to this, the treatment plan will be discussed with you in detail. The evaluation of your child's behavior and the development of a treatment plan will help Dr. Laura determine how many appointments will be required to complete treatment and if any advanced behavior management technique will be needed (such as nitrous oxide sedation).

Nitrous Oxide Sedation is often indicated when your child has never had treatment or has behavioral concerns.

**MANY insurances (Fidelis, Medicaid, UHC) DO NOT include Nitrous Oxide as a covered benefit. The nitrous fee in our office is \$100.00.**

**A \$50.00 deposit is required at the time of scheduling the appointment, and the rest is required before treatment the day of the appointment.**

It is important that you come prepared to pay this fee for treatment to be completed, or when a nitrous appointment is scheduled. This will allow us to efficiently treat your child and not delay any required treatment.

Thank you for your cooperation in this matter.

**Please do not hesitate to contact our office if you have any questions.  
(315) 681-6818.**
